

XXXX,

I am forwarding your email to some of my colleagues who can address CIM/CAM. Mr. Moe is the resident expert on CAM programs and XXXX and XXXX can answer questions about CIM. I would also be happy to talk to you about either CIM or CAM. Email is a little difficult since the programs encompass SO much!

I appreciate the interest in the work we are doing here at AHS.

Vicki

Dear Ms. Lukich,

Can you refer me to someone on your staff who can tell me about CAM and CIM? There is only enough on the school website to make a person want more! It tells what they set out to do, but I also wondering a) how are they structured and b) how they function. I'm working with some schools in western Oregon and am looking for schools close to them who might have some initiatives they can learn from. Thank you for your help.
