Business Ethics Pre-Assessment

1. What does the word "ethics" mean to you?

1. Think of a time when you knew you had to do the wrong thing for the right outcome. Please describe it and explain what your thought process was when making this decision.

1. Pretend you work for a company that has high speed Internet and that you always get your work done. Do you think it is okay to download music without paying for it using the company's Internet connection? Why or Why Not?
